Chartered Organization Name _____

Program Information

Crossroads of America Council is committed to making Scouting available to all children. In support of that commitment, the council aims to pay the portion of the national Scouting America registration fee and/or local council fee that youth cannot afford as funding allows. The dollar amount requested is the difference between the national Scouting America registration fee, local council fee, and what the youth, unit, and/or chartered organization can afford to provide. Units are encouraged to include assistance funds in their budget to ensure that council resources are available to those with the most need. See registration assistance procedures at <https://www.crossroadsbsa.org/resources/forms/> for more information.

Chartered Organization Certification

The youth, unit, and/or chartered partner applying for funds have paid as much of the fees as they can afford. If practical, the Scout unit will participate in the fall popcorn sale and annual fundraising campaign.

Our chartered organization is able to provide \$ _____ to help these Scouts pay their registration fees.
